Ronak Dattani

PRODUCT MANAGER | AI & TECHNICAL PRODUCTS | 0-to-1 PRODUCT DEVELOPMENT

Ahmedabad, India • ronakdattani.apm@gmail.com • +91 8849410031 • LinkedIn

PROFESSIONAL SUMMARY

Product-minded software engineer with 3+ years of experience building and improving products across AI, data, e-commerce, and SaaS. Experienced in translating ambiguous business needs into product requirements, collaborating with cross-functional stakeholders, and delivering measurable outcomes. Combines technical depth with business ownership, including founding a 50+ client agency and building 0-to-1 digital products.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | TechHighway Pvt. Ltd. • Apr 2025–Present

- Partnered with stakeholders to define scope and user workflows for Harold, an autonomous AI development agent, contributing to product decisions across the planning-to-code-review pipeline.
- Identified and prioritised core use cases for Simply::Ingest with business teams, reducing new data-source onboarding time by ~40%.
- Translated ambiguous requirements into clear specifications for 5+ integrations (APIs, FTP, email, crawlers), reducing misalignment and rework by ~30%.

Software Engineer | Deqode • Jul 2023–Mar 2025

- Worked across 5 products in e-commerce, podcast monetisation, and surveys; designed and delivered 100+ APIs while contributing to requirements and prioritisation.
- Collaborated with design, business, and engineering stakeholders to define feature scope and deliver all 5 products on schedule.
- Improved analytics and reporting performance, helping clients make faster data-informed product decisions.

Founder & Business Lead | HR Digital Marketing • Dec 2018–Jun 2020

- Built a digital marketing agency from 0 to 50+ clients, owning strategy, hiring, customer relationships, and delivery.
- Led a team of 10+, defining KPIs and workflows that reduced execution errors by ~25% and increased client retention to 80%+.
- Balanced product ownership, sales, and operations, making prioritisation decisions under resource constraints.

PRODUCT PROJECTS | AI & 0-TO-1 BUILDS

QSR Voice AI Agent | Independent Product Project • GitHub

- Built a functional voice AI web-app prototype focused on conversational interactions for quick-service restaurant workflows.
- Defined the core product experience and translated the use case into an end-to-end working application.

Hospital Appointment Booking System | Independent Product Project • GitHub

- Built a functional web-app prototype to streamline the hospital appointment booking journey.
- Mapped the booking workflow and translated the user problem into a working digital solution, balancing usability and technical feasibility.

LEADERSHIP & COMMUNITY

Founder | MITRAM Group

- Managed 6+ events end-to-end, leading a team of 30 from planning through on-ground execution.
- Built a self-sustaining event operations system covering planning, team coordination, and vendor management.
- Built a registration and payment platform from scratch serving 1,500+ attendees; operational playbooks reduced planning time by ~35%.

SKILLS

Product: Stakeholder management, requirements gathering, prioritisation, roadmapping, user story mapping, 0-to-1 development

AI & Systems: LLM workflows, autonomous agent design, prompt engineering, data pipeline architecture

Technical: Ruby on Rails, REST APIs, SQL, Sidekiq, Redis

Business: Go-to-market strategy, team leadership, client management, KPI definition

EDUCATION

B.Tech, Computer Engineering — Dharmsinh Desai University

Grades: 7.5/10 — Nadiad, Gujarat.
